1. The MAV Railroad Car Shop at Pestszentlőrinc (H 61) constructs twelve luxury railroad cars a month for the USSR. Cooking facilities and air conditioning are available in each of these coaches.
2. The factory is also producing 35 coal tenders per month for the USSR. The conversion of cattle cars to crude passenger cars, by installing wooden benches and putting doors on either side of the former center door, is in progress. They are to carry workers from the suburbs to the capital. People are already muttering: "First class for the Soviet bosses, but cattle cars for the Hungarian workers."
